LeetCode: ShashankTeja17 | HackerRank: shashankteja124

PROFESSIONAL SUMMARY

B.Tech Artificial Intelligence and Data Science student focused on product analytics, applied machine learning, and data-driven problem solving. Hands-on experience with Python, SQL, data preprocessing, exploratory analysis, computer vision, and AI-powered prototypes across insurance, banking, and surveillance use cases. Experienced in turning practical problem statements into technical solutions; interested in experimentation, personalization, recommendations, churn analysis, and improving user and business outcomes.

EDUCATION

B.Tech, Artificial Intelligence and Data Science | SNS College of Engineering, Coimbatore — 2023–Present | CGPA: 8.76
Higher Secondary Certificate (HSC) | Holy Cross Matric Higher Secondary School, Denkanikottai — 2023 | 87%

TECHNICAL SKILLS

Programming & Querying: Python, SQL, Java
Data Analytics: Pandas, data cleaning, preprocessing, exploratory data analysis (EDA), pattern identification, data visualization fundamentals
Machine Learning & AI: Machine Learning, Scikit-learn, TensorFlow, Generative AI, LLMs, Computer Vision, YOLO
Product & Experimentation: recommendation and personalization concepts, churn-analysis concepts, statistical analysis fundamentals, hypothesis-driven analysis, A/B testing concepts, model evaluation
Data & Development: MySQL, Pinecone Vector DB, FastAPI, REST APIs, OpenCV, React.js, Spring Boot
Tools & Platforms: Git, GitHub, Docker, AWS, Azure, Linux, Windows

EXPERIENCE & LEADERSHIP

RenewBuy Infotech, Hosur — Data Analyst Intern | Dec 2025
- Performed data analysis and preprocessing on insurance datasets to identify trends and patterns supporting business reporting.
- Supported data-driven workflows in an insurance technology environment, connecting dataset quality and analysis with practical business needs.

EDII-TN — Entrepreneurship Development & Innovation Institute — Hackathon Participant | Oct 2024
- Advanced to Round 2 with a VTOL UAV-based port-surveillance concept focused on security monitoring.
- Explored AI-based object detection using YOLO and real-time monitoring for a defence-oriented use case.

LeetCode Peer Mentoring — Student Mentor
- Mentored student teams in problem-solving and data structures and algorithms practice, encouraging structured reasoning and consistent coding practice.

SELECTED PROJECTS

SENTINEL SWARM — AI-Powered Fraud Detection | Bank of Maharashtra FinSpark Hackathon 2026
- Developed a prototype concept for banking risk and fraud detection using coordinated AI-agent workflows to surface suspicious patterns for review.
- Project stack and exploration: Python, FastAPI, Neo4j, ChromaDB, Redis, LangChain, and sentence-transformer embeddings.

KYI — Know Your Insurance — Project Lead | RenewBuy Collaboration
- Developed an insurance comparison platform covering 60+ insurance companies and reaching 50+ customers.
- Worked on policy recommendation and cost-optimization features to help users compare options and make more informed insurance decisions.
- Technologies: React.js, Java Spring Boot, REST APIs.

INTELLCAM — Real-Time Computer Vision Surveillance | Best Idea Award, NIT Trichy & MSME Startup
- Built AI-based software for real-time object detection and tracking from video using YOLO and OpenCV.
- Applied real-time video processing and analytics concepts to surveillance scenarios; technologies included Python and REST APIs.

DRDO-Oriented Defence Project | EDII-TN, 2025
- Developed a project solution for a defence-oriented problem, focusing on practical implementation, software/AI capabilities, and technology integration.

CERTIFICATIONS & CREDENTIALS

Western State University (WSU), California — Professional Generative AI Certificate • Analytics Vidhya — Pinnacle Certification Program
HackerRank — Verified Software Developer; REST API • Databricks — AI Foundation • AWS — Generative AI
Oracle — Machine Learning Application • ByteXL — Python, Software Testing, DBMS

ACHIEVEMENTS & ADDITIONAL INFORMATION

- Hackathon achievements include Anna University GENIO winner, KPRIET IDEAVIVE runner-up, and BIT ELFUTURIX runner-up.
- Technical interests: product analytics, user behavior, personalization, recommendation systems, fraud analytics, and responsible AI.

Languages: English, Kannada, Telugu, Tamil, Hindi; Basic German
